IN COUNCIL.

The Negroes of the Country in Council at Pittsburg—Fred Douglas

Given a Blow.

A Terrible Accident at the Elletsville Stone Quarries—Thirteen Persons Injured.

A General Resume of the Events of a Day Filled With Stirring Incidents.

A Colored Council.

PITTSBURG, April 29.—The inter-state conference of colored men assembled in the municipal hall this morning, and delegates were present from Connecticut, Rhode Island, Massachusetts, New Jersey, Ohio, Virginia, District of Columbia, Indiana, Illinois, Kansas and Louisiana, to the number of seventy-five. Among them were Fred Douglas and Bishop Greene, of Ohio. The convention presented a fine body of men, and a determination is expressed to prevent it being used for political purposes. At ten o'clock Rev. S. Smith, of Bloomfield, Ill., in a stirring address stating the object of the conference, called the convention to order, and Robert Jackson, of Pittsburg was elected temporary chairman. The committee on permanent organization will report this afternoon. Fred Douglas was nominated for temporary chairman, but the convention approved the nomination of Jackson.

Dynamite at Home.

CHICAGO, April 29.—A special from Bloomington, Ind., says that early this morning a fire broke out in a frame dwelling house near the Elletsville stone works. Adjoining the burning building was a frame structure, in which was stored a quantity of dynamite for blasting purposes. The fire reached this building, causing a terrific explosion. William Williams was killed and thirteen others wounded. Among those severely wounded is Peter Matthews, one of the proprietors of the stone works.

LATER.

Thirteen persons were killed or very seriously injured. A number are so badly injured that they cannot live but a short time. There is much excitement.

Exporting Whisky.

BALTIMORE, April 29.—A morning paper says: Whisky for foreign export is pouring into Baltimore. As the time approaches when distillers must either pay taxes and take out a bond or send it out of the country, they are rushing it to the seaboard. There is too much whisky in the country for the demand and the distillers prefer to export it temporarily. The most of it is going out on German steamships, and the greater part will be sent back when the demand improves.

Rose Etyngre Skips.

CHICAGO, April 29.—Rose Etyngre, who has been playing here in the "Winter's Tale," supported by her company, is reported to have left the city and to have cancelled her engagement at Detroit, where she was to play this week. The members of the company who have been left behind claim that the management is largely in arrears to them. It is supposed that the combination will necessarily disband.

Overdue—Dynamiters—Indictment.

GLASGOW, April 29.—Great anxiety is felt in regard to the steamship "State of Florida," several days overdue from New York. Detectives are awaiting to arrest supposed dynamiters.

The wages of shipbuilders on the Clyde were reduced to day 10 per cent. Twelve thousand men are idle.

A Happy Day Coming.

BALTIMORE, April 29.—The state democratic convention to select delegates to Chicago will be held here June 5. The state convention selects district, as well as delegates at large.

A Watery Grave.

ST. JOHNS, April 29.—Twelve men were killed and drowned on the schooner Paupnebot yesterday by a collision.

Congressional.

WASHINGTON, April 29.—In the Senate Morrill, of the committee on finance, reported favorably a joint resolution, ap-

propriating \$20,000 to defray the expenses of the exercises connected with the approaching completing and dedication of the Washington monument. The oration will be by Robert C. Winthrop, who delivered the oration on the occasion of laying the corner stone in 1848. Placed on the calendar.

HOUSE.

Lamb called up the joint resolution directing the president to bring to the attention of the government of Venezuela the claim of J. E. Wheelock. He gave a brief description of the outrages committed on Wheelock by the officers in order to extort from him a confession of a crime, of which he was not guilty. The joint resolution passed.

The morning hour was dispensed with and the house went into a committee of the whole, with Cox, of New York, in the chair, on the tariff bill.

The signal was not at once understood, and before they were taken out they were so fearfully burned that all will probably die.

Watchful Officers.

QUEBEC, April 29.—Richardson, the safe burglar just sentenced, has confessed, giving plot between the burglars and officers to clear out a bank.

TERRIBLE TIMES.

A Tramp Shoots a Man in Chicago Because a Dispute About a Dollar.

Old Man Jefferson Murdered by His Sons-in-Law and by His Own Son.

Tramping Thieves Kill One Man and Seriously wound Another in West Virginia.

Shot by a Tramp.

CHICAGO, April 29.—Isaac Jacobson, a tramp carpet cleaner, deliberately shot and killed George Bedell, proprietor of a carpet cleaning establishment in this city, this morning, for the alleged reason that the latter refused to pay him a dollar which the murderer claimed Bedell was owing him. An eye witness declares Jacobson shot Bedell while the latter's back was turned, without words of any kind.

Young Jefferson Confesses.

DES MOINES, Iowa, April 29.—The State Register's Audubon special says the murderer of old man Jefferson, of that place, have been captured, and are John A. Smyth and Joel J. Wilson, his sons-in-law, and Cicero Jefferson, his son. Yesterday they were brought up for examination, and Wilson and Smyth waived the same, and were remanded until Wednesday, but Cicero became conscience-stricken, and asked to be allowed to make a statement under oath.

He then proceeded to make a full confession regarding the murder, and told how he and the other two men left home on horseback, went to his father's house, tied their horses, broke into the house, took the old man from bed, tore off his shirt, put a rope around his neck, dragged him to a tree, and there hanged him, Wilson lifting up the body while the others pulled on the rope. They then wrapped the end around the body, mounted their horses and left. The people are thoroughly aroused and justice will be meted out. No technicalities of law will go down with the citizens. Everything is quiet there to-day.

A Fight With Robbers.

CHARLESTON, W. Va., April 29.—Last night three unknown persons entered the residence of Jack Woods, a farmer, for the purpose of robbery. Mr. Woods made an effort to drive the robbers out, but was shot and seriously wounded. His son, Albert Woods, heard the shooting and ran into the room and was shot dead by the robbers. Miss Mary Woods, the daughter, ran into the room with a pistol and shot at the robbers, who ran away.

It is supposed that one of the robbers was shot by Miss Woods, as blood was seen in the yard this morning. The robbers are supposed to be the parties who shot and robbed the ex-sheriff of Kinsburn county two nights before. There is much excitement, and if the robbers are caught they will be lynched.

TUESDAY, APRIL 29, 1884.
OFFICIAL PAPER COUNTY AND CITY.

A few men are trying to work up a Grant boom, but they find it uphill business.

The combination of European and American quinine manufacturers has been broken and the people can again afford to "shake."

In 1880 by the middle of April the Grant men and Blaine men both had nominated their respective favorites. When the convention adjourned it had nominated Garfield.

The purchase of the Richmond *Palladium* by Isaac Jenkins leaves the Dudley party without an organ in Wayne county. The Colonel will establish one shortly however. So it is rumored.

An Old Egyptian Agreement.

It is stated that Hon. John C. New

has started a turtle farm near Terre Haute and proposes to introduce this article of food to the Hoosiers. We fear this is another high-falutin Washington idea.

It will no doubt be much of a comfort to Robert Lincoln to know that Henry Ward Beecher favors his candidacy for president. Unfortunately Mr. Beecher is not a delegate to the convention and we know of no delegates who would likely be influenced. Consequently the addition to this boom is very small.

It is asserted that England will not send relief to Khartoum or General Gordon until next autumn when the rise in the Nile will make that route practicable. Certainly Mr. Gordon would be rejoiced to know that he was to have help even if it does take all summer. Mr. Gladstone should send out the Invincibles, armed with dynamite, to his relief.

THE Detroit *Times* very pointedly says: "The only way in which wages can be permanently increased in this country is to make America what England is to-day—the workshop of the world. When we are manufacturing for Mexico and South America, for Australia and China, then there will be plenty of work for all and wages will rise. But while we are hampered at present, with taxed raw material our laborers too quickly flood the small domestic market with their productions, and then, there being no work for them to do in the factory, they must go to farming. Talk about the tariff diversifying industries! It is every day driving men out of manufacturing."

The drainage of the Abite swamp is a matter affecting every citizen of Fort Wayne, as well as every citizen of Allen county. It is a burning disgrace that such a swamp should be so long allowed to remain in existence, the waters, which cover 26,000 acres of land, breed only malaria, insects and reptiles. That it should be drained none will deny, and that it will require a vast expenditure of money and labor is also true. But the mere thought of the reclaiming of such a vast territory, of seeing wheat and corn growing where now nothing but swampy lilies and stunted brush are seen, is certainly an object worth striving for and it should be pushed to an end, now that the ball has been set in motion.

IT CERTAINLY SHOULD GO.

The republican party must go! This may seem like an old and well worn saying, but it is true, and like all good and true maxims it will bear repetition. It should be kept before the people.

The republican party has been in power for so many years that from this cause, if from no other, it has grown corrupt. Its long lease of power has made its leaders believe that it was to be forever perpetuated, and with this belief they have all, with possibly a few exceptions, schemed as to how to make its success pay them in dollars and cents. The principles and objects for which the party was organized, and for which its founders fought determinedly and successfully, have all been lost sight of in the greed for personal gain and the accomplishment of personal ends. Its leaders no longer care for the accomplishment of a political or wise purpose; they are no longer con-

cerned as to the affairs of the nation only so far as it may retain their party in power that their own nests may be even better feathered and their purses made heavier from the frequent drawings on the government treasury.

Do the people need any further proof of this? They will arise in their own minds after a moment's serious thought upon the subject? The old wheel horses of the party who have never held an office, nor enjoyed any of the "perquisites" which falls to the average office holder, but who have been called upon, year after year, to do the hard and dirty work of the campaign, certainly can see little of the old principles as promulgated by the party of years ago and those by the party of to-day. They may recall why the party was organized—the objects it was to accomplish, and now they may call up the past three administrations and consider the various political jobs and trickery, planned and executed to extort large sums of money from the government and, directly or indirectly, from the people, and then candidly ask themselves the question whether the party is carrying out the principles which were given as its foundation stones at its birth. Can such men witness the scramble for office, the factional fights in progress in every state in the Union, the position of the party now towards the workingmen and the general condition of our country, and candidly, honestly assert that it would be wise or politic to retain this party in power?

A former invalid writes: "I was greatly reduced in health and strength, caused by bad blood. I had a dozen boils in different parts of my body, and suffered many aches and pains, while the least exertion gave me great fatigue. I took three bottles of Dr. Guyott's Yellow Dock and Sarsaparilla and am completely relieved. At night I enjoy refreshing, dreamless slumber, and all day I feel energetic and strong."

AN OLD EGYPTIAN AGREEMENT.

LONDON, April 28.—The blue book correspondence concerning Egypt's past has just been issued. From this it appears that in September, 1879, the Marquis of Salisbury, at that time English foreign secretary, agreed with Waddington, the French minister of foreign affairs, that France and England would earnestly support the native Egyptian government, but would inform the Khedive that they could not allow any European power to establish political influence in Egypt in competition with England.

WHAT IS SAID ABOUT IT.

There is no medicine which has been offered to the people for the last fifty years that has attained the popularity of Pond's Extract. The reason is plain. It is a medicine that relieves at once the sprains, bruises, burns, and all common ills that are sure to come which do not need a doctor, but must be attended to; and it is so simple that a child can use it. As a guarantee of its worth physicians everywhere recommend it, and, in many instances, they use it in their own practice. It is an indispensable household remedy, and no family should do without it.—*Indianapolis Journal*.

A NEW PLANET.

VIENNA, April 28.—It is announced that a new planet has been discovered at the astronomical observatory. It appears like a star of the twelfth magnitude. It was first observed at 10 o'clock Saturday night in constellation Virgo.

A MUTE EVIDENCE OF REFINEMENT

is a row of well polished teeth. People of vulgar instincts are very apt to neglect theirs. Cleanliness demands careful attention to the teeth, and experience indicates SOZODONT as the safest and surest means of retrieving their losses of beauty and vigor. It removes impurities upon and between them; imparts to soft or shriveled gums the hardness and robustness of coral; makes the breath fragrant and lends to feminine lips an additional charm.

FICTitious STRIKERS.

PITTSBURG, April 28.—A special from Irwin Station, Pa., says that 2,000 miners who have been on a strike for the past ten days, resumed work this morning, the Westmoreland company yielding to the demand to remove one inch screening.

Those complaining of Sore Throat or Hoarseness should use Brown's Bronchial Trochee. The effect is extraordinary, particularly when used by singers and speakers for clearing the voice.

London has 9,500 cabs, in which 880,000 passengers are carried daily, on an average. Paris has 5,500 cabs, and the average daily count of passengers is 50,000.

The friends of the Wabash, St. Louis and Pacific system, it is asserted, take the hammerings of the bears very philosophically. They claim that while the company is running behind and must for a few months to come, yet from January to January the road will show that it has earned enough to carry itself. When business revives, Wabash will have seen the last of its trouble and will show great improvement in its earnings. But for a year at least it will require careful nursing.

THE GAZETTE AND THE "CANAL."

From the Daily News.

Our morning neighbor is in a terrible condition with reference to the "canal." He has been opposed from the first to the purchase of the canal for the purpose of using its filthy water as a supply for our citizens.

The thought of drinking "canal water," teeming with the atoms of decayed animal and vegetable matter, gives the Gazette man a veritable nightmare. He seems to people his fancy with visions of men, women and children flocking to the banks of the "canal" between Columbia and Water streets, and slaking their thirst from the filthy stream. To those who understand the subject, no word of explanation is necessary, but to our neighbor, whose very short residence in Fort Wayne has doubtless caused his impression that the "canal" to be bought is the channel running through the city—and that alone—it may be proper to say that at no time, under no circumstances, has the committee on water works, or any one else, thought of purchasing the "canal" as a canal. The object in view has always been to buy the water of the St. Joseph river.

Nor has anyone (save the editor of the Gazette and those whom he has misinformed) supposed that our citizens were to be supplied with water from the "canal" between Water and Columbia streets.

The plan of Mr. Moses Lane provides for the construction of settling basins, and in his judgment and that of Mr. Williams, the northern part of the park land property owned by the city, affords just exactly the quality and location desirable.

In the event that the above plan is adopted, the water of course would be taken from the canal at the Spy Run aqueduct, before it enters the city at all.

Mr. Lane's estimate also provides for the dredging and cleaning of the entire bed of the canal, from the feeder dam to the feeder aqueduct.

Now, if the editor of the Gazette will prove how water, with a good, uninterrupted current, flowing through a cleared channel to a point outside the city, where it is to be elevated into a stand pipe for use, is objectionable, we will submit that he has made a point against the purchase of the "canal."

There is one way, and only one, to get the St. Joseph river water—i. e., to buy it. It is owned now—all of it—by those who have bought this section of the canal. They own it, just as a man owns his farm when paid for, and it cannot be taken from them.

Because this water is so owned, and because there is no other source of supply for the water works in Fort Wayne, the committee favored its purchase, as did also a long list of the very soundest business men and heaviest taxpayers of our city. To buy the water of the St. Joseph river, it is necessary to buy this section of the "canal" and a few short-sighted individuals (the Gazette man among them) ring their charges upon the word "canal" as though that was the prospective purchaser.

Reports from a dozen places along the line of the Grand Rapids and Indiana railroad announce great trouble and damage from forest fires in Northern Michigan on Sunday last. The Washington correspondence of the Indianapolis Journal of to-day says:

"Representative Lamb, Senator Voorhees, Col. Dick Bright, and State Senator R. C. Bell dined together at the Ebbitt this evening. Mr. Bell arrived here yesterday, and is with his wife, visiting the family of General Brady. He will return to his home at Fort Wayne on Wednesday."

About two months ago a man came here from New York and opened a grocery store at the corner of Highland and Calhoun streets. He had a pretty woman whom he introduced as his wife and lived with.

About a week ago a lady came to town and summoned Captain Diehl. She informed him she was the groceryman's wife and the woman he lived with was not. Captain Diehl interviewed the gentleman and a recollection was affected, but not until the wayward damsel was pitched into the street by the indignant wife. The fellow and his wife returned to New York City.

The business here was abandoned.
